## DESCRIPTION

The goal of ASDF is to support children with an Autism Spectrum Disorder by providing information, education, and financial assistance to their families and relevant community service organizations.

Funds donated to ASDF are used to address any and all kinds of issues in assisting children with autism and their families. By providing financial assistance to families and autism-specific organizations, together we are able to give autistic children and their families the resources they need to grow. In addition, ASDF spreads awareness by providing Early Detection Kits, free of charge, to individuals and agencies who work with infants, toddlers and preschool children.

It is only through the generosity of donors that ASDF is able to provide funding for their various programs that benefit children with autism. These programs are designed to meet the specific needs of individual children and let families know they are not alone in their efforts.
